PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in Next.js, React.js, Node.js, and MongoDB, specializing in scalable web platforms, and AI-integrated applications. Proven ability to maintain high-uptime production systems, implement secure authentication, and deliver end-to-end solutions with modern UI/UX design, backend, third-party integrations, and performance optimization.

EXPERIENCE

SAILGO | Full Stack Intern — Remote | Apr 2026 – Present

- Developing and maintaining web applications as part of a dynamic remote engineering team.
- Working on both frontend and backend development tasks across ongoing technical projects.
- Collaborating with the team on product features, supporting marketing campaigns, and conducting business and market research.
- Adhering to company policies including strict confidentiality of proprietary code, client data, and business information.

Tuition-Ed | Developer Intern — Remote | Dec 2024 – Present

- Spearheaded maintenance and upgrade of the core educational platform, successfully ensuring 99.9% system uptime across production.
- Developed and launched new.tuition-ed.com featuring a comprehensive admin dashboard for efficient teacher and student management.
- Implemented secure authentication flows, Role-Based Access Control (RBAC), and critical feature enhancements to significantly improve user experience.
- Optimized database queries and frontend rendering pipelines to reduce page load times and enhance overall platform responsiveness.

ACADEMIC PROJECTS

StayNest | *Next.js, MongoDB, Cloudinary* | 2025

- Built a comprehensive full-stack room listing platform tailored for students, using Next.js for the frontend and MongoDB for the backend with Cloudinary for optimized media management.
- Implemented secure user login, advanced amenity filtering, location-based search, map functionalities, payment gateway, and automated email notifications.

Tuition-Ed Platform | *Next.js, Tailwind CSS, MongoDB, Node.js* | 2026

- Connected tutors and students through a seamless digital interface using Node.js for robust backend services and responsive Tailwind CSS UI.
- Implemented course management, secure authentication, real-time data updates, and Razorpay payment gateway integration.

Cloudinary-Store | *React.js, AI Integration* | 2024

- Developed a content sharing platform with AI-based cover image generation capabilities and efficient media delivery strategies.
- Ensured secure user content management with robust authentication and optimized asset storage and retrieval workflows.

CollaBharat | *Next.js, MongoDB, AI Integration, Payment Gateway* | 2026 (In Progress)

- Built a social platform enabling users to post projects, form teams through an approval-based interest system, and collaborate in role-based workspaces.
- Integrated AI features, task assignment, progress tracking, and a payment-enabled marketplace to sell completed projects to startups.

EDUCATION

Ewing Christian College (University of Allahabad) | Bachelor of Computer Applications (BCA) | CGPA: 8.1 | 2023 – 2026

PROFICIENCY SKILLS

Languages & Frameworks: JavaScript, TypeScript, C++, Java, C#, Python | Next.js, React.js, Tailwind CSS, HTML5,
Backend & Tools: Node.js, MongoDB, Cloudinary, Linux, Git/GitHub, REST APIs, WordPress Customization
Core Competencies: Full Stack Development, API Integration, Authentication & Security, Performance Optimization, AI Integration

ACHIEVEMENTS & CERTIFICATIONS

- Awarded BCA "All-Rounder" and recognized as "Management and Development Expert" (2026).
- Certified in ReactJS Bootcamp & Hackathon (2024), GenAI Powered Data Analytics, AWS Cloud Security Essentials for Executives, Off-Page SEO and AI Search Essentials with Semrush, and Data Analytics Job Simulation (Deloitte).
